

# Night Depositories

## Setting the Standard for Security

### ULC Listed Class C1 & C2 Depositories

The manually operated Access Night Depository meets ULC Listed Class C1 (15 minutes) and C2 (30 minutes) for after hours deposits of bags and envelopes.

A heavy-duty pin tumbler lock secures the bag opening. The exterior face of Access Night Depository is finished in high-grade, polished stainless steel. The deposit compartment and the exterior face is illuminated at all times by a light unit built into the frame of depository. This light unit is protected against tampering, while being readily accessible for replacement when required.

With minimum maintenance required to retain optimum appearance, the unique receptacle design insures secure deposit movement into the receiving safe.

Left Hand or Right Hand door swing.

Also available without the clearing safe.

### UL Listed Depository Head in a TL30 Depository

All of the features of the ULC Listed Depositories above in a more price friendly unit. The TL30 Depository is available in two different sizes.

Left Hand or Right Hand door swing. Also available without the clearing safe.
